Ellensburg, Washington 98926

Attn: Andrew E. Bishop, R.S., M.P.H.
Director of Environmental Health

Dear Mr. Bishop:

We desire to continue to use the Vantage Landfill operation until June of 1974, with closing, covering, and seeding taking place in June and July.

We desire a nonconforming permit to allow operation of our present facilities beyond September 15 of 1973 to allow a more orderly beginning of operations for the Ellensburg Disposal Company at the Horlick site without conversion of the Vantage area to containers in such a short time period. Since the Vantage landfill has sufficient capacity to operate for the next twenty years, it also seems foolish to close it before we absolutely have to.

We would propose to convert the Vantage customers to the containerized system in May of '74. This will allow sufficient time for Mr. Hinckle to contact our customers, determine their loading and container size requirements, order and place the containers, and effect an orderly transition of the accounts from Stockdale, Inc.

Sincerely,

Wayne T. Stockdale
